## Background

Fernando Olivera is owner and partner at GeotexInd Oil & Gas and SEDCEP. Mr. Olivera created Sedcep company after invented the last Technology Platform , Geofield2.0 and SingleWell 3.0., giving the solution of High-resolution visualization data, seismic volume interpretation and earth modeling from basin to reservoir scale to provide valuable insights into the oil and water network reservoir, oil draining patterns through convergence of faults or fractures to have a better understanding of trapping. It can also enable a detailed characterization of the potential reservoir, enabling the successful exploration of reserves and identification of the best drilling targets. This integral approach improves understanding of geologic mechanics, engineering and economic risks, enabling drilling to begin with confidence. Better understanding enhances the ability to estimate reserves and determine investment potential, facilitating the exploitation of your prospects –adding value to the decision making process. Mr. Olivera thinking in help to the operator Oil companies decide open the new technology market being partner of GeoTexInd Gas & Oil company in USA.

Mr. Olivera received his B.S. in in Physics and Mathematics, master's degree in Solid State Physics and Master's Degree in Petroleum Engineering.

## Expertise

- Reservoir Engineering
- Statistical and data analysis
- Petrophysical Interpretation
- Well Behavior Analysis
- Seismic interpretation and structural plans
- Evaluator of investment projects
- Project and work group manager

## Projects and Barrels

- Offshore Ixtal field in Gulf of México, 11230 barrel daily
- Offshore Tekel field in Gulf of México, 6000 barrels daily
- Onshore Iride field in Mexico areas, 600 barrels daily
- Onshore Oxiacaque field, Mexico, 2880 barrels daily
- Onshore RDS owner field, Kansas USA, 100-200 b/d (16)
- Consulting services Brazoria H LLP, Houston TX.

## Customers as a service provider

- Halliburton México
- Schlumberger México
- National Mexican Oil Company (PEMEX)
- Radial Drilling Services Corporation (Texas)
- Brazoria Hydrocarbons LLC , (Texas)
